

**Ulster  
Wildlife**

# Nature Nurtures Children Wildlife Workshops with Ulster Wildlife

Starting in May 2021, Ulster Wildlife are offering three new species based workshops for pupils from P4 – P7 (Key Stage 2).

- Barn owls
- Hedgehogs
- Red squirrels

All three are iconic and much-loved native species that Ulster Wildlife are currently working to conserve and protect because each one is now recognised as **endangered in Northern Ireland**.

Take part in one or all of these **interactive workshops** to learn more about these amazing local creatures, what is threatening their future and how we can each do our part to help them survive and thrive. Curriculum links: 'The world around us'.

*We hope that, in due course and following Government guidelines on Covid 19, we can deliver an in-person version of the workshops at your school. The cost of this workshop will be £95 per class (mileage included).*

Each online workshop lasts an hour and a half, and costs £75 per class (Approx. 30 pupils)

Full instructions and resources for all activities and games will be emailed prior to the zoom session talk.

## Barn owls

*(Tyto alba)*

This workshop includes an online zoom talk on Barn owls with time for questions and answers, an investigation of feathers, fun, active, outdoor learning games and a thought provoking activity which looks at the development of our countryside over time. Follow up activities are provided.

## Hedgehogs

*(Erinaceus)*

This workshop includes an online zoom talk on hedgehogs with time for questions and answers, an outdoor survey for pupils to complete around the school grounds leading to the development of an action plan for helping hedgehogs. The session also includes simple hedgehog craft and fun, active, outdoor learning games. Follow up activities are provided.

## Red squirrels

*(Sciurus vulgaris)*

This workshop includes an online zoom talk on Red squirrels with time for questions and answers, followed by fun, active, outdoor learning games and indoor/outdoor craft activities based on Red squirrels. Follow up activities are provided.
