

EGG CASE ACTIVITY INSTRUCTIONS

This activity will reinforce learning from the Sea Deep Education Packs session 4 by allowing students to practice their egg case ID skills.

- 1) Cut out/ have students cut out egg case illustrations from the egg case resource sheet. Enough for one of two species egg case per student.
- 2) Hand out the egg case activity sheets to students. One each or in pairs.
- 3) Give out/ hide the egg case illustrations around the classroom (creating a real egg case hunt).
- 4) Ask students to find the egg cases and match them to the egg case ID description.
- 5) Give out the correct answers and go over any key ID features for a final time to reinforce learning.
