Nina Schonberg,
Nature Recovery Networks Project
Coordinator

"Pathways for Nature Recovery Networks in Northern Ireland"

The aim of this session is to provide the attendees with an overview of the high-level developments since the first webinar series back in April 2021. Each speaker has been asked to provide an overview of their work area and to highlight both the keys for success and the biggest challenges for delivery and their views on what they would like to see happen next. The event is chaired by Dr. Catherine Duigan.

These webinars are a part of an **National Lottery Heritage Funded partnership** project between Ulster Wildlife, National Trust, RSPB NI and Woodland Trust. More information on the project can be found at ulsterwildlife.org/nature-recovery-networks

Any questions please get in touch with the Project Coordinator, Nina Schönberg, at nina.schonberg@ulsterwildlife.org

12:15-12:30	<i>Closing remarks</i> <i>Nina Schonberg,</i> <i>Nature Recovery Networks</i> <i>Project Coordinator</i>

"Approaches for Nature Recovery Network delivery in Northern Ireland"

Following up from the first session, the aim of this second webinar is to have a closer look at some of the potential delivery mechanisms for NRNs in Northern Ireland. We'll hear from a wide spectrum of Northern Ireland-based initiatives and the role they could make in decision-making for NRN delivery locally, regionally and nationally. The event is chaired by Dr. Catherine Duigan.

These webinars are a part of an **National Lottery Heritage Funded partnership** project between Ulster Wildlife, National Trust, RSPB NI and Woodland Trust. More information on the project can be found at ulsterwildlife.org/nature-recovery-networks

Any questions please get in touch with the Project Coordinator, Nina Schönberg, at nina.schonberg@ulsterwildlife.org
